

Youth Teen Volunteer Program

The American Red Cross has a program for youth ages 14-17 years old only. This program runs through the summer from the end of the school year to the beginning of the school in the fall. Those high school students who are completing community service hours for graduation from high school are allowed to continue their volunteer service during the school year.

May of each year, the youth are required to complete an application and interview process. All volunteer positions will be located in Evans Army Community Hospital, DENTAC or the Veterinarian Clinic. The volunteer positions are career oriented. This gives the youth an opportunity to see a field in the medical career that may be of interest to them for their future vocation.

Applications are available during the month of May at the main Red Cross office located in building 1217 at the corner of Ellis St. and Specker St. on post. For more information, please contact the main office at 526-2311.
